

WORKING TITLE: "Universal Basic Income"
 A Docu-Series on the Feasibility of Universal Basic Income

The Difficult Problem We Solve

Are we witnessing the end of work? "Universal Basic Income" presents a clear unbiased look at controversial topic gaining prominence globally, Universal Basic Income (UBI). This film series seeks to look at the history of work and money, rise of capitalism, the psychology of work and how perceived value is created, stored and lost. Additionally, the role technology plays as a force for increased efficiency drive job loss and displacement. Can technology offer solutions in form of blockchain and cryptocurrency?

Why the Problem is Hard to Solve

UBI discussions are controversial and deeply complex, which raises questions about human nature: "UBI will make us all lazy" "no one will want to work" to practical questions about implementation: "Who will fund this?" Finding compelling ways to present complex aspects of the UBI will be the main challenge of the docu-series.

Our Solution

AACC, MannaBase and other partners will produce a docu-series on UBI for distribution on Netflix/Amazon. Topics covered will include:

- A Brief History of Work
- Human Nature and Value Creation
- Capitalism - forces of change/unintended consequences
- Role of tech: Blockchain/crypto solutions for UBI disbursement

Key Features

Docu-series that presents complex UBI issues in easy to understand manner. This will be accomplished by:

- 1.) Conducting Interviews with experts from different industries (psychology, economics, politics, banking, tech, crypto)
- 2.) Using of compelling animations, and motion graphics, to simplify complex ideas and create engagement.
- 3.) Distribution strategy with Netflix/Amazon to maximize exposure and viewership

Major Value the Film Delivers

- A balanced look at the most important problem of our generation: Job loss and displacement due to AI
- Explores the impact on 100 million+ Americans and even more globally
- The current state of fiat markets
- Offers controversial solutions

Top 5 Controversial Facts about UBI

1. It will help sick people live longer
2. It will eliminate poverty
3. It will lead to meaningful work
4. It will end abusive relationships
5. It will save capitalism

What is Changing in the Market

Change is hard to adopt. Rapid changes in the marketplace as a result of capitalism's quest for efficiency has lead to unprecedented job loss due to globalization, technical and mechanical automation.
